Sandusky & Kimball Twp.

2022 SPRING TREE ORDER FORM

Distributing Trees in Macomb, St. Clair & Sanilac Counties

Product Descriptions

- Seedlings** (2-0) or (3-0) - Grown for two or three years in specialized seedling beds.
- Transplants** (2-1) Grown for two years in a seedling bed, then transplanted and grown for another year, allowing for a more robust root system.
- Extra Large** Usually grown for 2 years in seedling bed then transplanted and grown for another 2 to 3 years to allow for a more expansive, branched stem and root system.
- Conifers** A bush or tree (such as a pine) that produces cones and usually has needles that are green all year.
- Deciduous** A bush or tree that has leaves that fall off every year.
- Pollinators** Some fruit trees and vegetable plants need a pollination partner (different variety) to bear produce. Planting the appropriate species will help ensure a great crop.
- Urban Areas *** **Some trees are not suitable for small lots, road right of ways, urban parcels with sidewalks or underground utilities — these trees are marked by an asterisk (*).**
- For more detailed descriptions of products offered please check out our product catalog at www.bluewatercd.org or stop in at one of our offices.
- Tree planter rental available (requires 40 hp. tractor with 3 pt. hitch) Contact the office for rental rates .

Warranty Disclaimer: Trees/Plants are primarily sold as Bare Root Stock. Blue Water Conservation District (BWCD) liability ceases when orders are picked up. BWCD is not liable for improper handling or planting (of the plants) after the customer takes possession. BWCD is not liable nor guarantees survivability.
